

The background features a stylized landscape. The top half shows green mountains of varying heights and shades, creating a layered effect. The bottom half is a solid orange color, representing the ground. A horizontal line with a rough, torn-paper texture separates the green mountains from the orange ground.

Fossils

By: Noah Proctor

Tree Fossil Example

A fossil was formed in this:

This is what happens when
a bug gets stuck :

This is what happens when
fossils are put together.
